C.J. Maricante
Plant Manager
Village of Sauget, Wastewater Treatment Plant
10 Mobile Street
Sauget, Illinois, 62201

Dear Mr. Maricante:

The Illinois Environmental Protection Agency (IEPA) is in receipt of your letter of December 14, 1987 informing us of recent mitigative measures taken in 1987. The area in reference is the location of the tanks owned by Bliss Waste Oil of Missouri and located on Clayton Chemical and Village of Sauget properties.

As you are aware, the IEPA is presently conducting a study of numerous waste sites in the Sauget area. The area which you reference is included in our study, which we anticipate as being concluded in the spring of 1988. We appreciate your keeping us aware of your activities and the measures you've taken. Our consultant will be notified so that this information may be filed and descriptions of present site conditions updated.

However, we by no means accept the described mitigative measures taken in 1987 as officially approved or condoned by this Agency. If you have questions, please feel free to contact Terry Ayers or Jeff Larson at the above telephone number.

Sincerely,

William C. Child, Manager
Division of Land Pollution Control
